USE WARM WORDS IN CONSIDERING CASE OF CARDEN

Supervisor Larsen Lets His
Wrath Rise and Deputy City
Attorney Holds On

Warm words were passed at the meeting of the supervisors last night for the first time in several months.

Most of them were applied by Supervisor Larsen in his opinion of Deputy City Attorney William Carden's holding two offices. Following a statement from Supervisor Ben Hollinger that he believed Carden should resign either from his office as deputy attorney or from the public utilities commission, Larsen arose and said: "This is another case of the fall wagging the dog. It is said all around town that this second deputy attorney of ours is running the board, that he tells us what to do and we have to do it."

His voice rising, he continued: "Mr. Carden's attitude to the board ever since he has been here has been supercilious. He has appeared to me merely condescending to act for the board. One piece of impudence that I will never forget or forgive occurred when he threatened to send the whole board of supervisors to jail for violation of act 2214, an act that his own office has violated. It prohibits expenditures in excess of appropriations and is purely technical in character."

"And then, the unmitigated gall of him! He came and asked us for a raise!"

Larsen went on to say that he agreed with every word that Hollinger had said.

Hollinger, during his speech, produced copies of letters from A. M. Brown, city attorney, to the board and from Carden to Brown, written at the time of Carden's appointment. They both say that the new second deputy would not accept any outside work as he deemed it necessary for the efficient conduct of his office that his whole time be devoted to it.

Then Hollinger pointed out that Carden would have to frequently absent himself from the city on utility commission business, in fact had left Saturday without securing permission from the mayor or the board.

After an expression from Supervisor Arnold, who pointed out that there was likely to be a conflict of interest between the city and utilities commission at any time, and from Supervisors Horner, Hatch and Logan, who saw no harm in Carden's continuing to serve in both capacities, the matter was dropped as there was no motion before the board.

Supervisor Hollinger promises to take the matter up with A. M. Brown, city attorney, when he returns from his vacation. He is the only man who can force Carden out, unless the board abolishes the office.

ROAD TOO SMOOTH, IS COMPLAINT MADE BEFORE SUPERVISORS

James L. McLean, secretary of the automobile club, asked the board last night to take some means of rendering safe the belt road through Oahu plantation. He said that in going over it a few days ago he skidded the whole length of that section, despite the fact that he had chains on and did not use his brakes.

"The only complaint that I have to make is that the road is too smooth," he said. This was something of a joke, though McLean did not realize it at the time, for the general complaint is that the roads are too rough. It brought a hearty laugh from the members of the board.

Supervisor Arnold explained that the trouble was probably due to the fact that the line of trees there shelters the road from the sun so that it is almost continually wet.

The matter was referred to the road committee.

Sure Way to Kill Rats

Worst and Most Expensive Household Nuisance.

Millions of dollars of property are destroyed yearly by rats simply because people do not appreciate the destructive power of rats and do not know how easy it is to kill them. Simply get a two-ounce box of Stearns Electric Paste from your druggist for 25 cents and use it at night in accordance with the simple directions, and in the morning there should not be a rat in the house.

Nothing else is as effective as Stearns Electric Paste in exterminating rats, mice, cockroaches and other vermin. The government uses it in its fight against rats. Directions in 15 languages in every package.—Ad.

SACRED COLLEGE RECEIVED BY POPE

ROME, Italy.—Pope Benedict has received the members of the Sacred College, who presented their greeting on the eve of the Pontiff's name day. The Pope recalled all that he had done to alleviate the horrors of the war and to hasten the end of the conflict. He also expressed regret that neither he nor others were working for the same end had yet been able to induce the belligerents to negotiate for peace.

The delegation was headed by the dean of the Sacred College, Cardinal Vincenzo Vannutelli. The audience had a private and familiar character. There were no formal addresses or speeches.

PARDON SOUGHT FOR CURRAN; IS NOW IN PRISON

Labor Organizer Got 4 Months
on Charge of Assaulting
Non-Union Worker

A movement to secure a pardon for the defendant, now confined in Oahu prison, is the latest development in James Curran's fight against a charge of assault, of which he was recently convicted in circuit court. Curran was found guilty of having assaulted James Terry, a structural iron worker, and sentenced to four months in prison.

The petition for a pardon for Curran, which has been sent to the governor, is signed by J. Edwardson who, according to the city directory, is business agent for the Sailors' Union of the Pacific. Governor Pinkham has referred the application to Deputy Attorney-General Arthur G. Smith for an opinion. The opinion will not be ready for several days, Smith says.

After conviction in the circuit court, the Curran case was taken to the supreme court on exceptions to the verdict of the jury. The exceptions were overruled and the case remanded back to Judge Ashford. Curran was then committed to prison. On the ground that a constitutional amendment was violated because written evidence was produced against Curran, the case was taken into the federal court on a petition for a writ of habeas corpus.

Judge Horace W. Vaughan denied the petition. Curran came in again with a new petition and Judge C. F. Clemons issued an order to show cause why the writ should not issue. A copy of the order was handed to Sheriff Charles H. Rose.

Prior to the date in which the writ was to be returned, the matter was discontinued by Curran's attorneys, the statement being made that they were contemplating action along other lines.

BUILDING PERMITS

E. W. CHRISTMAS PAINTINGS WILL BE SHOWN HERE

E. W. Christmas, R. B. A., is still on Maui and is rapidly recovering from his late illness. He has been a guest at Haleakala ranch and has made several characteristic studies of that district, his latest being "The Cattle Drive." At the Maui hotel he has a fine display of island scenes which are immensely popular there, his pictures being full of that wonderful opalescent brilliant color so true to the island. Many of his paintings have already found permanent homes on the island.

Christmas will shortly exhibit some of his latest works in Honolulu.

CANE IN IMPERIAL VALLEY

SAN FRANCISCO, Cal.—The California Development Board reports that experiments will be made in the Imperial valley this fall to gather authentic data upon the commercial adaptability of sugar cane in that section. Work already done by the University of Arizona on similar soil and under similar climatic conditions indicates that this may become a profitable industry. Experiments with sugar beets will also be conducted, and if it is found that they can be raised successfully inducements will be made for the establishment of a combination cane and beet sugar plant.

MOVIE WRITER'S PAY IS ONLY \$8000, SAYS WIFE

NEW YORK, N. Y.—More light on "movie" salaries was shed by the assertion of Mrs. Elaine L. Buchanan that her husband, Donald I. Buchanan, scenario writer and employed at various times as writer or co-director by the Universal, Vitaphone, Kinema-color and Western Film concerns received from \$7000 to \$8000 yearly.

THEY REFUSE TO EAT

At periods in most children's lives they fail to relish their meals and refuse to eat even the delicacies prepared to tempt their appetites. They lack ambition, and growth seems impeded, which causes anxiety and worry.

To compel them to eat is a grave mistake, because nutrition is impaired. Healthful exercise in fresh air and sunshine is important, but equally important is a spoonful of Scott's Emulsion three times a day to feed the tissues and furnish food-energy to improve their blood; aid nutrition and sharpen their appetites.

The highly concentrated medicinal food in Scott's Emulsion supplies the very elements children need to build up their strength. They relish Scott's—it is free from alcohol.

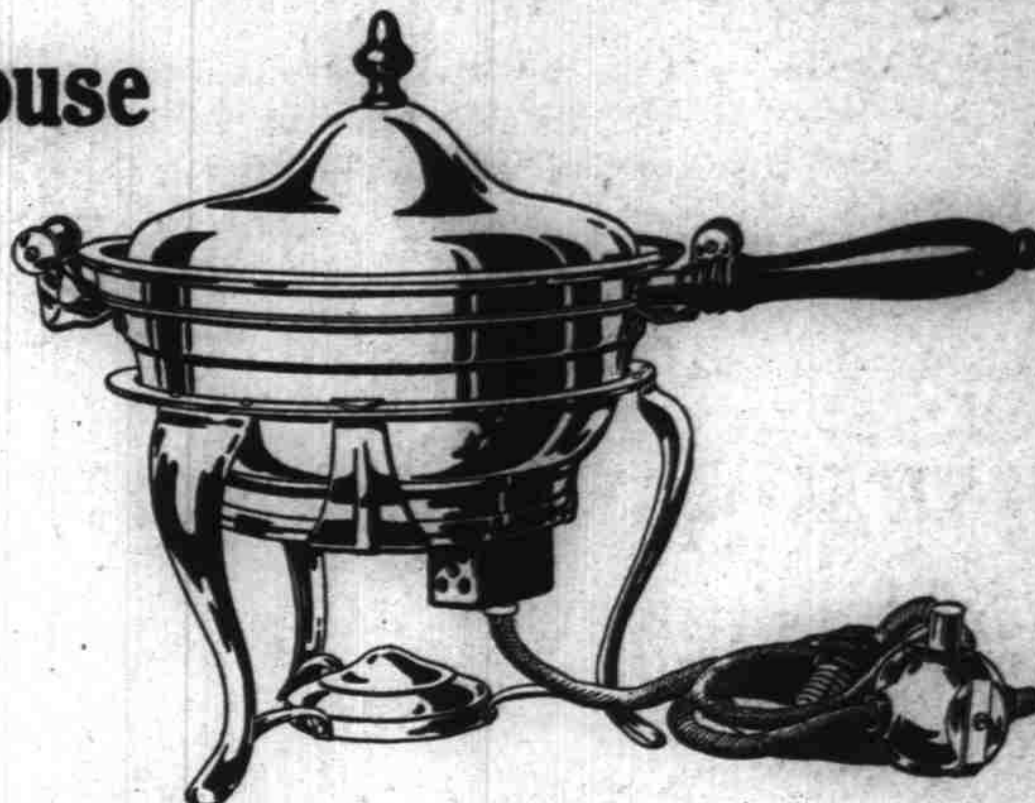

Scott & Bowne, Bloomfield, N. J.
